Mr. S. G. Bradley
Biology
Northwestern University
Evanston, Ill.

Dear Bradley:

When are you visiting Madison? The next week or so would be best on my part, but consult your own convenience.

Would you be interested in a furnished house, with plenty of room, and one of the better homes within reach of the University, that will be available from Sept. 1 (or 15) to January 15 at \$125 per month? If you can afford it, this would be excellent value for that rent; you should still be able to manage quite well for about \$100. Professor R. Burris (Biochemistry) is letting his home while he takes a Fulbright to Finland, and the interval should give you an opportunity to collect furniture etc. before finding another location, as at University Houses.

Yours sincerely,

Joshua Lederberg
